

Technical Data Sheet Nawkaw Li-THN

Lithium-Thin Stain for Masonry and Concrete

Nawkaw

Changing the color of masonry

Official US supplier of Reckli formliners

DESCRIPTION

Nawkaw Li-THN is an extremely durable lithium silicate based, inorganic stain for concrete and masonry surfaces. It penetrates and bonds to dense materials. The thin base keeps natural surface textures from being covered up, while providing vibrant color.

COVERAGE / TREATMENT YIELD

200-400 sq ft per gallon depending on the absorbency of the substrate

PHYSICAL PROPERTIES

- Total Solids 10-20 % (based on formulation)
- Specific Gravity: 1.15 – 1.17
- pH 11
- Film: no
- Flash Point: None
- No V.O.C. Content
- Freeze point 32° F (0° C)
- Abrasion Resistance excellent
- Depth of Surface Penetration 2-8mm (non pigment chemistry)
- Shelf Life 6 months in factory sealed container

APPLICATION

- Coverage rate vary with concrete quality and finish

RECOMMENDED FOR

- Brick
- Concrete
- Concrete Block
- Precast
- Tilt-up

DRYING TIME

1-2 hours
